Hi All,

A former board member has outlined on twitter that we were working on the attached and name checked me (that is fine, it doesn't bother me so no worries there). But just a heads up I would expect something to come in on it, I have already been contacted by a student on LinkedIn about it. But it got a bit of attention from two prominent economists and a person working in the media.

So just an FYI now that something will likely come in

Kind Regards,

Seán Golden
